REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Rollinsford :

I submit herein my first annual report as superintendent of schools, the report covering the half-year ending February 1.

My work began in the early summer with numerous conferences with the school board regarding the selection of new teachers, care and repair of school houses, and equipment of books and supplies for the coming year. Since the opening of the schools in September I have visited each week all the schools in the village including the Quamphegan, and have visited the two rural schools, the Sullivan and the Pear Yard, about once each fortnight. I have conferred regularly with each teacher regarding the details of her work, offering such criticism and suggestions as I was able, and we have had numerous meetings of the villiage teachers after school hours for the discussion of matters of common interest.

Four places out of nine were vacant at the close of the school year in June. Miss Allen resigned as principal of the Franklin school and Miss Finnegan as teacher of the fourth and fifth grades. Miss Dempsey resigned as teacher of the Sullivan school and Miss

Guptill as teacher of the Pear Yard school. These positions were filled by the transfer of Miss Austin to the Franklin fourth and fifth grades and the election of Miss Sylvia A. Collins of South Berwick as principal. Miss Mabel C. Golden of South Berwick was elected as teacher of the Quamphegan school, Miss Christina F. Chick of Somersworth teacher of the Sullivan school, and Miss Ruby L. Dame of Amesbury, Mass., teacher of the Pear Yard school.

It is a pleasure to speak in the highest terms of the teaching force. The town is fortunate in commanding the services of a corps of teachers decidedly above the average in character, ability and success. It will be the part of wisdom to make every possible effort to retain such a force. One evidence of successful teaching is the enthusiasm and eagerness of the pupils. If anyone still thinks of school work as a dull routine he has but to visit one of our classrooms to be undeceived. He will find that the process of education, so far from being a dull routine, is an exceedingly interesting and in many cases an exciting process.

The work of the schools here, as elsewhere, has been broken up by the epidemic of influenza. Rollinsford schools were closed for four weeks in the midst of the fall term and the opening of the winter term was delayed one week for the same reason. Four weeks of this lost time can be made up by giving but a week's vacation in the spring and continuing the summer term until June 27. The following calendar gives a year of thirty-five weeks:

Sept. 9 to Sept. 27, three weeks, four weeks recess;
Oct. 28 to Dec. 20, eight weeks, two weeks vacation;
Jan. 6 to March 28, twelve weeks, one week vacation;
April 7 to June 27, twelve weeks.

The urgent request of the Committee on Public Safety, that all communities in which there were non-English speaking people, immediately organize evening schools for instruction in the English language presented a problem of formidable proportions to Rollinsford, inasmuch as a census of the industrial population showed a large enrollment of such persons.

This problem your board has met in a patriotic and successful manner by proper equipment of lights in the Franklin school, and the organization of classes for beginners and for those having some knowledge of English. The class of beginners has averaged twenty-five and that for more advanced pupils about half that number. It is quite certain that the local communities will not be left to bear the full burden of this all-important work of Americanization, but that both the state and federal authorities will move promptly to assume their share.

During the war many demands have been made upon the school. To all of these both teachers and pupils have responded with patriotism and willingness to serve. In food production, in thrift stamp savings, in gifts for starving peoples abroad they have done wonders. A careful estimate of the value of the food crops raised by the 108 children who had gardens last summer gave a total of \$1,489.92. Already 144 pupils have

enrolled at the request of the government as gardeners for the coming summer.

In thrift stamps and war saving certificates the pupils have made an investment of \$1,126.50, and in liberty bonds \$900.00, making a total investment in government securities of \$2,026.50. They have also made gifts of \$120.03 toward the United War Work fund. And in all the varied activities for the common good they have not been obliged to turn aside from their school work, for these patriotic activities have been, in practically every instance, educational instruments of the highest order.

In conclusion may I acknowledge the uniform courtesy and consideration which I have received at the hands of your board. This combined with the friendly and cordial attitude of the children and their teachers, has made my work in the Rollinsford schools a pleasant task to which I have looked forward in the intervals between my visits.

Respectfully submitted,

CHARLES A. BRECK,

Superintendent.
